## Beta Testing

| Age | Gender | How often do you use Social Media? |
|-----|--------|-----------------------------------|
| 30 | M | Daily |

## Check off Boxes once completed

| Instructions | Completed on Own | Asked for help |
|--------------|------------------|----------------|
| Create an account | ✓ | |
| Click Create an event button | ✓ | |
| Fill in event fields and Create event | ✓ | |
| View Your event created | ✓ | |
| Go back and View another event | ✓ | |
| Attend an Event | ✓ | |
| Go to Home and Delete your previously created event | ✓ | |
| View a person's profile | ✓ | |
| Go to notification window and see the notifications | ✓ | |
| Delete a notification if there any | ✓ | |
| Sign out | ✓ | |

Additional comments

After Login, Create event wasn't listed had to navigate to home page

Time increments awkward
Swipe to delete - had to figure out

## Additional Questions

Was the navigation of the app simple?

Yes

What is your impression of the user interface?

Very nice

What feature would you add or remove?

Notifications for events the user has joined

Did anything confuse you?

Swipe to delete had to figure out

Would you ever see yourself using this app?

Yes

user 2

| Age | Gender | How often do you use Social Media? |
|-----|--------|-----------------------------------|
| 36 | Male | Almost never |

## Check off Boxes once completed

| Instructions | Completed on Own | Asked for help |
|--------------|------------------|----------------|
| Create an account | ✓ | |
| Click Create an event button | ✓ | |
| Fill in event fields and Create event | ✓ | |
| View Your event created | ✓ | |
| Go back and View another event | ✓ | |
| Attend an Event | ✓ | |
| Go to Home and Delete your previously created event | ✓ | |
| View a person's profile | | Thought this meant someone else's |
| Go to notification window and see the notifications | ✓ | |
| Delete a notification if there any | ✓ | |
| Sign out | ✓ | |

Additional comments

- 10+ implies 10 or greater. 10/10+ is confusing in drop down
- Signing in dropped me in about. To create event, have to go to the "Home." Maybe rename to events?
- Forced to pick time. Thought I was picking start time.
- "<Event" goes back to all events, not just one. Make it plural
- Need additional Delete methods

-Delete method for notifications different than events
# no confirmation
- Hamburger menu useless

## Additional Questions

Was the navigation of the app simple?

Yes, but needs work. "Home" should be "Events" and "< Event" should be "< Events"

What is your impression of the user interface?

Colors need work. Maybe add icons next to navigation so it can be collapsed to icon-only view.

What feature would you add or remove?

. Click on Those attendly to see profile

Did anything confuse you?

Couldn't find Events initially

Would you ever see yourself using this app?

Still not sure what it does. I want to advertise an event and not have it start immediately.

Additional comments

## Additional Questions

Was the navigation of the app simple?

Yes, it was simple and most tasks were obvious

What is your impression of the user interface?

It's nice and clean, with a few minor changes I think the "add event" icon should be changed. I associated it with an edit button more than add

What feature would you add or remove?

I think all needed core features are there. Would be nice to click on and view others' profiles.

Did anything confuse you?

Deleting an event. I expected a long press, but a swipe does make sense

Would you ever see yourself using this app?

I think it has potential to be useful

| Create an account | ✓ | |
| Click Create an event button | ✓ | |
| Fill in event fields and Create event | ✓ | |
| View Your event created | ✓ | |
| Go back and View another event | ✓ | |
| Attend an Event | ✓ | |
| ~~Go to Home and Delete your previously created event~~ | | |
| View a person's profile | ✓ | |
| Go to notification window and see the notifications | ✓ | |
| Delete a notification if there any | ✓ | |
| Sign out | ✓ | |

Additional comments

email char limit should be longer (Student email didn't fit), not clear on how to view other profiles (if implemented?)

## Additional Questions

Was the navigation of the app simple?

yes

What is your impression of the user interface?

Clean and flat, I liked it

What feature would you add or remove?

.Viewing other people's profiles

Did anything confuse you?

Couldn't click on a user to see their profile

Would you ever see yourself using this app?

yes, its a good idea, with a few improvements it could do very well in a mobile app store.

Additional comments

- icons help identify.
- validate pick time

## Additional Questions

Was the navigation of the app simple?

yes, except create event.

What is your impression of the user interface?

slick, but a little plain

What feature would you add or remove?

Did anything confuse you?

Would you ever see yourself using this app?

totally, esspecially if incorparted w/ social media

| Go to notification window and see the notifications | ✓ | |
| Delete a notification if there any | ✓ | |
| Sign out | ✓ | |

Additional comments

Delete notification takes a while to delete multiple.
Event description is right on the edge.

**Additional Questions**

Was the navigation of the app simple?

Yup.

What is your impression of the user interface?

Simple.

What feature would you add or remove?

Maybe a location option (where the
meetup is taking place

Did anything confuse you?

It took a second to find create
event button.

Would you ever see yourself using this app?

Nope, not really any need for
me.
